Personal profile

Wang Xiao focuses on the protection of intellectual property rights in China, especially concerning anti-counterfeiting and anti-unfair competition in the area of trademarks, copyrights, trade names, computer software and designs. He advises regional and international corporations covering a wide range of industries, including machinery, electronics, chemical, luxury, cosmetics, pharmaceuticals, food, alcohol and liquor etc. He also provides counseling on the practice related to software development, online payment and social media etc.

Mr. Wang has extensive experience in helping clients protecting their IP rights through criminal procedures. He has handled a large number of cases concerning the protection of trademark, copyright and trade secret in criminal procedures. He deeply understands the working modes of law enforcement agencies and is good at protecting brand owners' rights while cooperating with law enforcement agencies in criminal procedures.
